A sign can say a lot about your church and its congregation.

Are you large or small, established or new, traditional or contemporary?

How does your congregation want to present itself?

Signs by Jukes is here to help you create a sign that will represent your church and serve as a voice to the community.

We are a family owned and operated business that has been serving the Waterloo Region and area since 1940.

Displayed here is some of our recent work creating church lawns signs. Listed below are other products and services that may be of use to you.

Products

- Interior Signs
- Wayfinding Signs (Interior/Exterior)
- Parking Signs
- Vehicle Lettering
- Banners/Posters

Services

- Free Consultation
- Design
- Fabrication
- Installation
- Service

Preparation

Since your sign is intended to provide your congregation with many years of reliable service it is important to create a complete plan before fabrication begins.

Placement

We would love to speak with you about your sign ideas and offer our suggestions about proper placement, size and style to compliment your building and the surrounding area.

Materials

At Signs by Jukes every sign is unique and no element effects the look, style and presence of your sign more than the materials used in its construction.

By using the materials found in your building, such as brick, stone, steel, stucco, and concrete, a uniform relationship is created between your sign and building.

It is our job to explain the benefits and differences between the available materials needed to create the look you want, while staying within budget.

Messageboards

Change Letters

This traditional form of changeable text has been used reliably for decades. Simplicity, durability and cost effectiveness have contributed to their continued use.

These plastic letters are easy to read from a distance and light well at night when used on a back-lit box. A variety of letter sizes, ranging from 3 to 12 inches, are available.

Lockable plastic cover faces can house your message preventing theft and message alteration on lower signs.

Electronic Messageboards

Very eye catching and versatile, we are sure you have seen these bright and active displays.

Available for both indoor and outdoor use, these signs can be as simple as plain text display or as stunning as a full colour, full motion billboard.

With so many options, these are the factors you need to consider:

- Indoor or outdoor use
- Size (width and height)
- Number of lines of text needed
- Red, Amber, or full colour display

The software and training needed to run and program the message board you choose will be provided face to face by an on site technician to ensure you get the most out of your investment.
